

Dear Driver's Education Instructors,

Donate Life North Carolina is very grateful for your partnership in helping to educate teens about donation. Almost all North Carolinians who choose to register as a donor do so by getting a heart on their driver's license. Covering this topic in your classrooms helps prepare your students to make this very important decision.

The enclosed materials have been developed to help you cover donation in your classrooms. This packet includes:

- A sample lesson plan
- DVD with stories about donation from national news organizations
- Descriptions and Comprehension Questions & Answers for each story
- An Understanding Donation Handout for students
- Homework Assignment to help facilitate family conversations
- Donation and Transplantation Quiz

We are grateful to the instructors whose classrooms have provided a testing ground for many of these materials. For those teachers already covering this topic in their classrooms, we hope that you will find some of these materials helpful as a supplement to your current resources. For those of you new to the topic, we hope that the materials will offer you an accessible starting point.

Please contact us with your feedback or to suggest other activities and/or resources you have found useful so that we can share them with other instructors across the state.

Sincerely yours,

Tamara McLaughlin
Grant Program Administrator
